PRELIMINARY AMENDMENT

Sir:

Please amend the application as follows:

IN THE CLAIMS

Please amend the claims submitted on May 30, 1996, and entered upon the Notice of Appeal, as follows:

1. A data processing system being comprised of:
- a display;
 - a cursor control means connected to the display for displacement of a cursor represented on the display; and
 - a user-interface means, having a manually operable data input device [being] coupled to the cursor control means for user manipulation of the cursor via the cursor control means, the manually operable data input device [the user-interface means] being operative to control the cursor control means by transmitting low speed data, effecting a relatively low cursor speed, to the cursor control means during a predetermined time interval, and by transmitting high speed data, effecting a relatively high cursor speed, to the cursor control means after the predetermined time interval has elapsed;
- wherein the cursor control means is operative to displace the cursor at the relatively low speed relative to the display during the predetermined time interval upon activation of the manually operable data input device [user interface means] and to displace the cursor at the relatively high speed after the predetermined time interval has elapsed.
